

Investor Pack

We buy undervalued residential and commercial buildings across the North East, re-engineer them into high-performing rental assets, and deliver fixed, secured returns for the private investors who fund our pipeline.

WHO WE ARE

Two operators — not middlemen

- Founded by directors Jack Haswell and Joshua Graham — hands-on with every acquisition, build and refinance.
- Specialists in HMO conversion, serviced accommodation and buy-to-lets across Teesside and Darlington.
- Every project offered to partners is one we have underwritten with our own capital.
- Monthly investor reporting: photos, spend, timeline and milestones — full transparency.
- We find, develop and manage — individually or end to end — with lettings run by Capital One Property Management.

Current pipeline: £1.5M of HMO and BTL projects across the North East — funding open.

THE STRUCTURE

How your capital is protected

01 A written agreement

Your fixed return is agreed before you commit, documented in a formal loan agreement.

03 Monthly reporting

Photos, spend and milestones every month, from acquisition through to completion.

02 Secured on property

Your loan is secured against the asset itself — bought below market value in demand areas.

04 A defined exit

On refinance or sale, your capital and agreed return are repaid.

Let's talk about what your capital could be doing
